

Attention Chamber Music Lovers and Musicians:

The Maplewood Chamber Music Workshop has been offering adult amateur musicians the opportunity to work on the masterpieces of the chamber music literature in a warm and friendly environment for more than 25 years. We meet 4 times a semester (spring and fall) at the Ethical Culture in Maplewood NJ on Saturday afternoons once a month. Participants are grouped with musicians of a similar level and work on an appropriate piece. Pre-formed groups are more than welcome. Each group has an hour coaching session with a professional musician as well as an hour of rehearsal on their own. In between is a break where refreshments are served and participants can socialize. Each workshop session concludes with a half hour presentation which may be a performance or lecture intended to be of interest to chamber musicians. Please see our website for further information:
